## Global Data Mining, LLC

### Turning trade data into information you can use

The US government compiles years of data on all of your company's import and export transactions. This data can be converted, organized, and compiled into hard-hitting executive reports providing the information you need to assess current performance, develop targeted strategies to improve global trade processes and financial performance, and free millions of dollars in cash from your supply chain.

**Powerful Data:** Your trade data combined with our proprietary data

Your company's trade data is analyzed using GDM's proprietary software and two of the world's most powerful and comprehensive trade databases; *CUSTOMS Info* and *Tariffic International*. The Xtreme Trade Intelligence™ Reports combines a succinct Executive Summary of each analysis with the complete set of Trade Data Detail behind the numbers.

**Powerful Information:** Executive Summary and Trade Data Detail

The *Executive Summary* is designed to provide executives a comprehensive yet quick overview of their global trade operations to make decisions, develop strategy, and assign specific projects. The *Trade Data Detail* provides the line item information that a trade professional needs to dig into the details and implement effective change.
